 tered water will be sold to District cities at the rate of \$15 per acre foot, a rate equal to 3.5 cents per 100 cubic feet. Torrance is expected to use in excess of two and one-half million gallons of water a day during the period of the M. W. D. test.

**DOESN'T NEED ANY MORE R. F. C. MONEY**

With construction of the Colorado aqueduct completed, the board of directors this week notified the Reconstruction Finance Commission that it would not market the last \$25,000,000 of the \$80,000,000 block of bonds

for which the R. F. C. gave its commitment some months ago. This means that approximately \$37,000,000 remains of the \$220,000,000 bond issue authorized by the voters in 10 Los Angeles county cities 10 years ago. This sum will be available to extend the distribution system to any other cities that may join the district, to make repairs that might be required or for emergencies.

With the delivery to its 10 member cities in this county and 3 member cities in Orange county, the district will begin to receive revenue. Much of this will go to the authority operating Boulder dam, since the water district will use 37 per cent of the dam's electrical output to raise the water from the lake behind Parker dam in five

**Office Open Evenings**  
 "While we need only 81 signatures to qualify the Powell and Babcock petitions, we want to secure a great many more than this number, so that there will be no possibility of a short-  
 age after checking," Mitschrich said.

"Anyone wishing to add his name to the petition may do so by calling at my office, 1409 Marcelina avenue. The office will remain open every evening this week, and if it is not convenient to come to the office, upon telephoning 354 and making such a request, an authorized petition circulator will be glad to call at your home or place of business to take your signature," he added.

**H.S. SAFETY UNIT MAKES FINE RECORD**

Under supervision of Wallace Post, the past year's safety commission at Torrance high school has accomplished what few have in the past. It was reported today. In addition to establishing a new record for clearing the buildings during fire drills, the safety group has given a number of practical demonstrations and removed various safety hazards on the school grounds.

Because of these achievements, the commission has received a ranking of third place among all of the safety commissions functioning in the Los Angeles city high school district. Members of the commission, who with the exception of Guy DeWitt, will function next term under Wallace Post's leadership are:

Bob Lewellen, Jack Jensen, Guy DeWitt, Stanley Pierson, Norman Marsteller, Jackie Gibson and Jo Bayless. They hope to make Torrance high school the safest in Southern California next semester.

**Week's Building Totals \$20,800**

**Girls Must Believe When Visiting Camps**

WITH so many eligible "dates" in training camps all over the country, many a pretty young miss will have to learn a new code of deportment if she wants to endear herself to the boys doing their part for Uncle Sam.

With this in mind Henrietta Ripberger has summed up several worthwhile hints in the June issue of Good Housekeeping magazine, which if followed will make you a welcome visitor to military posts. Here they are:—

Don't show up with chevrons on your jacket, stripes on your sleeves, sailor collars with emblems. The boys have to look at brass and eagles all day long.

They want you in fluff, not in uniform.

Don't say you can't hoof it in the shoes you have on. Wear sports or spectator-sports shoes, or make up your mind to be a sport and suffer. The Service walks!

Don't try to get special privileges. Don't use influence or try to vamp the Sergeant. Your guy will suffer for it later on.

Don't expect the army to feed you. Learn to live on sodas and like it.

Don't yoo-hoo at the General even if he is your dad's best friend. Wait until the General yoo-hoos at you!

Don't be chummy with privates if you're out with a Brass Hat.

Don't run about like a child star bringing her parents together in a movie, coyly introducing privates to officers.

Don't make yourself conspicuous. You might be "posted," which means you're not allowed to come again.

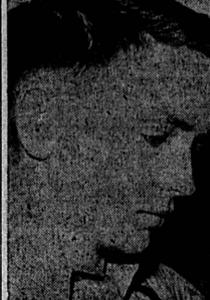

Don't make it hard for your man to report for duty. Don't smuggle him anything to drink. Asked as to the effect of alcohol, an Annapolis man wrote, "The effect on a Midshipman is usually a complete change of residence and occupation."

Learn to smile when you say good-bye, and the Skirt Patrol will be back for you next time.

**Refunding of Alondra Park Is Completed**

Without a protest being registered, the reassessment map for refunding Alondra Park District was recorded Tuesday by the county board of supervisors and decision was made to improve the park with unemployed labor on a temporary basis.

The park improvement plan with unemployed single men from the county sent here temporarily was put through by Supervisor John Anson Ford after the assessment map had been recorded. Recent protest was made by Gardena Valley civic groups against the county stationing indigent men at the old SRA camp while working on park improvement.
